

June 25, 1978 Sun.

Dear Vicki and Jimmy,

I was so happy when you called at Mary's last night. Your trip to Cape Code sounds just wonderful and I looked it up on the map today and also read about it and it mentioned one town of Provincetown that is on the tip on Cape Cod and I wondered if you were going to be there altho there are so many places to see and be that you will just love it. When you were born, Jimmy, the nurse I had was from Cape Cod and she would go home every week and she would tell me how beautiful it was there.

We went to the Washington Athletic Club last night with Diane and it was a very great fund raiser which cost fifty dollars a ticket, which of course we didn't have to pay. We stayed for only about one hour and had the H'ourdourves and a couple of drinks and Diane had a good time seeing all the people. When we left with Diane we drove around the Seattle Center and down to Pioneer Square and then we stayed at Mary's house until she and Mike came home which was about eleven o'clock. Mary has been playing duplicate bridge at the Mercer Island bridge club every Wednesday with a girl friend of hers. I played there for many years so Mary sees many of my friends. She said they all ask about me and wonder why I have dropped out of exsistant. If Diane moves to Washington D. C. I think I might start playing again but so far I have really lost interest. I work hard in the yard and really enjoy it and I pile up so much debris that dad and I have to make trips to the dump quite often.

Tomorrow morning, (Monday), dad and Ted are going to Euphrata again. That is where I went last week with dad so he could talk to some man who is working on the packaging of the shipping of the towers. Ted has his single engine plane which they will fly in if the weather permits, otherwise they will drive. The flight will take only about one hour and their appointment is for eleven A. M. so it will be best if they can fly.

I think it will be really nice having the family party at Jeannie's that I told you about. Lillian isn't coming with Cully as the trip doesn't mean anything to her and she has no interests here, and the girls are just as glad she isn't coming. It will be Uncle Cully's 65th birthday the day of the party which is the 3rd. Also it is hard to believe that Stella's Bernice will be forty years old on the second of July.

Dick hasn't decided yet if he will accept the promotion in the New York office. They don't want to leave here and he has a little time to think about it. It sounds pretty good to Sandi as she has wanted a bigger house for a long time.

I haven't heard anything more about the investigation of Roberta's death. Billy is still free and is staying over at her house but I guess we will hear more about it before long.

Have a wonderful week-end and the traffic will be just terrible so which ever one of you drives, be sure you keep safe and I will be anxious to hear about the trip.

While I was reading about Cape Cod I also read about Bar Harbor, Maine, and it makes me want to go back there again, as all those states are so beautiful and I still dream about the wonderful trips we have had with you two.

Love,

Mom.

*Here is the dollar I owe you.  
Also this battered up quarter was in  
my mother's button box.*
